FORM 4 EVALUATION EXAMINATIONS

BIOLOGY

Name:		School:		
Region:		_ District:		
	SECTI	ON A (15 MARKS)		
Answer all questions				
1. For each of items (i-x the item number.) choose the correct ans	swer from item number alternatives and write its letter beside		
A) Segregation	B) Incomplete domin	tion Mendel did not deal with nancy E) Independent assortment		
A) Segregation C) Linkage iii. The site of the th A) Right atrium	B) Incomplete doming D) hybridization iickest musculature in B) Left ventricle	E) Independent assortment the heart is the;		
C) Aorta	D) Right ventricleE)	Left atrium		

iv. Asthma is characterized by

A) Spasm in bronchial muscle B) Damage in diaphragm

C) Alveolar wall degradation D) Pain in lungs. E) Leakage in diaphram

- v. Asthma is characterized by
 - A) Spasm in bronchial muscle B) Damage in diaphragm
 - C) Alveolar wall degradation D) Pain in lungs. E) Leakage in diaphram
- 2. Fill in the blank spaces by using the appropriate terms
 - i. Match the items in LIST A with the response in LIST B by writing the letter of correct response beside the item number.

LIST A	LIST B
i) Cells between seminiferous tubules ii) The coiled tube for sperm storage iii) The process which sperm are released iv) Gland that produce the fluid which makes 90% of the semen v) Secretes a fluid that provides a favourable medium for mobility of sperms	A. Copulation B. Ejaculation C. Cowper's gland D. Interstitial cells E. Epididymis F. seminiferous tubules G. Seminal vesicles H. Accessory glands

SECTION B (60 MARKS)

Answer ALL questions in this section

- 3. a) Why is reproduction essential for organisms
 - b) Differentiate between gametogenesis from embryogenesis
- 4. Give reason(s) for the following
 - a. Cell wall is important organelle for plant cell.
 - b. No sun no life
 - c. Virus is a non-living thing
- 5. a) Mention two functions of the stomach
 - b) List any two adaptations of small intestine to the functions it performs
 - c) State two conditions necessary for photosynthesis.
- 6. a) Define the term (i) diseases. (ii) Health (iii) Immunity
 - b) Give one example of the following diseases.
 - i. Protozoa disease
 - ii. Viral disease
 - iii. Bacterial disease
 - iv. Fungal disease
